Re: Request for Notification of Proposed Use of Herbicides or Pesticides

Dear Supervisor O'Neill:

Living so close to the GGNRA has been a source of great pleasure and also some concern to the Muir Beach community. We currently, in light of the sudden cutting of so many trees in the park lands which are adjacent to our water district, wish to request that we be notified of pesticide or herbicide usage within the Redwood Creek watershed.

Since there are several agencies in the watershed having regulatory responsibilities that may include a need for or see an advantage in the use of pesticides or herbicides, it seems reasonable to request notification of the proposed usage of pesticides or herbicides. This is especially applicable since our District is responsible for delivering pure and healthy water to the approximately 150 homes in the community of Muir Beach.

Thank you for your consideration.

Very truly yours,

Beto Pichardo
Mary Dennis Holm
Steve Hoffman
Mary Ostroff
